Usage Design:

Detects benzodiazepines and metabolites in urine

Test Capability Quantity:

100

Protective Storage Feature:

Requires refrigeration between 2 degrees to 8 degrees c

Component Breakdown Within Each Test Kit:

1 six ml vial of benzodiazepine assay antibody/substrate reagent a; 1 six ml vial of enzyme reagent b; one 13.3 ml vial of emit drug assay buffer concentrate

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
