Physical Form:

Gelatin

Primary Container Type:

Dish, petri

Culture Medium Ph:

7.20

Total Primary Container Quantity:

100

Special Features:

60 by 15 mm., 100 mm. Diameter monoplate; contains gc agar base and gchi enrichment for pathogenic bacteria overgrown with other nonpathogenic bacteria

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A10000
