Usage Design:

For quantitative determination in serum or plasma

Test Capability Quantity:

100

Test Media:

Plasma or serum

Component Breakdown Within Each Test Kit:

1 reagent pack; 100 sample cartridges; 100 cuvettes

Special Features:

For use with abbot tdx/tdxflx analyzer

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A510v0
