Physical Form:

Liquid

Usage Design:

For testing of plasmas from patients on heparin therapy

Derivation:

Human

Primary Container Type:

Vial

Primary Container Content Quantity:

1.000 milliliters

Total Primary Container Quantity:

10

Product Name:

Control coagulation liquid human elevated levels 1ml 10s

Special Features:

Elevated levels

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A10000
