Usage Design:

For use w/paragon electrophoresis system

Test Capability Quantity:

100

Component Breakdown Within Each Test Kit:

10 acid hb gels; 1 bt maleic acid buffer; 1 bt paragon violet stain; 1 bt hemolyzing reagent; 10 blue templates; 10 template blotters; 20 gel blotters

Special Features:

Test uses acid hemoglobin electrophoresis on agarose gel

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
