Physical Form:

Liquid

Usage Design:

For identifying microorganisms

Primary Container Type:

Ampul

Primary Container Content Quantity:

0.500 milliliters

Total Primary Container Quantity:

50

Product Name:

Voges-proskauer test reagent .500 ml 50s

Special Features:

For use w/api and minitek system; voges-proskauer b

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A10000
