Usage Design:

An enzymatic, saliva alcohol test

Test Capability Quantity:

1

Total Primary Container Quantity:

100

Product Name:

Test kit alcohol detr enzymatic saliva alcohol test 100s

Test Media:

Saliva

Component Breakdown Within Each Test Kit:

1 test device; 1 collector; 1 dessicant pack

Exterior Container Weight:

3.30 pounds

Exterior Container Cubic Measure:

0.60 cubic feet

Exterior Container Quantity:

1

Special Features:

Disposable; test range 0-350 mg/dl; does not require refrigeration

Unit Of Issue Cube:

0.60 cubic feet

Supplementary Features:

Quantitative alcohol results shall be available in 3-5 minutes

Unit Of Issue Weight:

3.30 pounds

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A510v0
