Usage Design:

For the in vitro qualitative determination of giardia lamblia trophozoite and cyst antigen in feces

Test Capability Quantity:

48

Protective Storage Feature:

Requires refrigeration between 2 degrees to 8 degrees c

Product Name:

Test kit giardia lamblia detection 48 tests

Component Breakdown Within Each Test Kit:

C/o four 12-well strips; one stripholder; one 11ml bt of reagent 1; one 11ml bt of reagent 2; one 11ml bt of reagent 3; one 2ml vial of positive control; one 2ml bt of negative control; one 6ml bt of chromogen; one 6ml bt of substrate; two 25ml bt Of wash concentrate 20x; one 12ml bt of stop solution

Special Features:

Treat all reagents and samples as potentially infectious materials

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A510v0
