Usage Design:

Provides background count values equal to or less than: 0.05m/mcl (rbc); 010.K/mcl (plt)

Primary Container Type:

Carboy

Primary Container Content Quantity:

20.000 liters

Product Name:

Blood diuting solution 20 liters

Special Features:

Rcontains fewer than 400 particles per ml w/a size of one femtoliter or greater; maintains diluted cell volume of each red cell and platelet stable in the 1: 12, 500 dilution count and sizing portion of measurement cycle

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A10000
