**Physical Form:**

Lyophilized

**Protective Storage Feature:**

Requires refrigeration between 2 degrees to 8 degrees c

**Usage Design:**

Thrombin time testing

**Primary Container Type:**

Tube

**Primary Container Content Quantity:**

1.000 milliliters

**Total Primary Container Quantity:**

30

**Product Name:**

Thrombin clotting time test reagent lyophilized 1ml 30s

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A10000
