Physical Form:

Lyophilized

Protective Storage Feature:

Requires refrigeration between 2 degrees to 8 degrees c

Usage Design:

Thrombin time testing

Primary Container Type:

Tube

Primary Container Content Quantity:

1.000 milliliters

Total Primary Container Quantity:

30

Product Name:

Thrombin clotting time test reagent lyophilized 1ml 30s

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A10000
