Human Chemistry Control - Page 1 of 1

View Online at https://aerobasegroup.com/nsn/6550-01-406-3353

General Description:

Liquid product designed to monitor clinical chemistry test, it provides values for 68 constituents and has an exceptional pen-vial stability at

2-8 degrees c for all analytes, lyphochek unassayed chemistry control level 1 25 x5 ml

Shelf Life:

N/a

Unit Of Measure:

Demilitarization:

No
