Product Name:

Test strip water quality bt 50 test strips

Special Features:

Strips are for performing semi-quantitative pre-screenings, spot-checks, field tests, or on-site evaluations of water quality with reliable results on every test. Test strips are manufactured with a unique reagent pad at the tip. These mult-parameter test strips test for five water quality measurements on 1 strip: free chlorine (0-10mg/l), total chlorine (0-10mg/l), total hardness (as cac03, 0-12 gpg and 0-425 mg/l), total alkalinity (as cac03, 0-240mg/l, ph (6.2-8.4). One bottle contains 50 test strips

General Description:

50 test strips; tests total chlorine, free chlorine, total hardness, total alkalinity, ph
