Cubic Measure:

1.0 cubic centimeters

Product Name:

Monoclonal antibody to chorionic gonadotropin, beta subunit (beta-hcg), concentrated

Special Features:

Clone: 602; immunoglobulin class: mouse igg; immunogen: purified human chorionic gonadotropin; store at 2.0 to 8.0 degrees c; do not freeze

Functional Description:

This monoclonal antibody is designed for the specific localization of beta-hcg in formalin-fixed, paraffin-embedded tissue sections. This antibody is currently available for research use only, and is not for use in diagnostic procedures

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
