**End Application:**

Used on immunochemistry analyzer

**Test Capability Quantity:**

100

**Product Name:**

Reagent set, transferrin

**Test Media:**

Serum

**Special Features:**

In vitro diagnostic reagent for quantitative determination of trf (transferrin) in human serum by turbidimetric immunoassay iron bonding protein

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fig:**

A510v0
