Physical Form:

Liquid

Usage Design:

For monitoring the performance of automated and manual procedures for the analysis of proteins and other critical analytes assayed in cerebrospinal fluid

Primary Container Type:

Bottle

Special Features:

Level 1.6; 2 year shelf-life; analyzes albumin iggi, chloride igmi; chloride igmi; glucose lactate; part name assigned by manufacturer
liquicheck spinal fluid control

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A10000
