Usage Design:

Designed to detect cytokines in cell culture fluids

Product Name:

Human tnf

Component Breakdown Within Each Test Kit:

One each recombinant human tnf standard; rabbit anti-human tnf polyclonal antibody; 96-well pre-coated immunoplate; (murine anti-human tnf monoclonal antibody); assay diluent; wash buffer; enzyme diluent; alkaline-phosphatase conjugated goat anti-rabbit antibody; color reagent a; color reagent b; stop solution; acetate plate sealers

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A510v0
