Usage Design:

Competitive immunoassays that measure total cytokine

Product Name:

Human bfgf

Component Breakdown Within Each Test Kit:

One each recombinant human bfgf standard; rabbit anti-human bfgf polyclonal antibody; blotin conjugated bfgf; 96-well pre-coated immunoplate; diluent no. 1; diluent no. 2; wash buffer; streptavidin conjugated alkaline phosphatase; color reagent a; color reagent b; stop solution; acetate plate sealers

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A510v0
