**Usage Design:**

Designed to detect cytokines in cell culture fluids

**Product Name:**

Human mip-1b

**Component Breakdown Within Each Test Kit:**

One each recombinant human mip-1b standard; rabbit anti-human mip-1b polyclonal antibody; 96-well pre-coated immunoplate; (murine anti-human mip-1b monoclonal antibody); assay diluent; wash buffer; enzyme diluent; alkaline-phosphatase conjugated goat anti-rabbit antibody; color reagent a; color reagent b; stop solution; acetate plate sealers

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A510v0
