**Usage Design:**

For screening and detection of autoantibodies against various specific nuclear antigens

**Features Provided:**

Enzymeimmunoassay

**Test Capability Quantity:**

25

**Product Name:**

Immunodot dna/ena panel

**Component Breakdown Within Each Test Kit:**

25 assay strips; 4 reaction vessels

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A510v0
