End Application:

ACL1-00-0CO-AGUL

Usage Design:

Coagulation tests

Total Primary Container Quantity:

10

Protective Storage Feature:

Requires refrigeration between 2 degrees to 8 degrees c

Product Name:

Test low fibrinogen control coagulation analyzers 10s

Component Breakdown Within Each Test Kit:

Low fibrinogen control, 10 (1ml ea)

Special Features:

10/1ml bottles; low fibrinogen control

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A510v0
