Usage Design:

For human identification

Test Capability Quantity:

50

Test Media:

Blood

Component Breakdown Within Each Test Kit:

N1 amplitype pm pcr reaction mix; 1 amplitype pm primer set; 1 mineral oil; 1 purified genomic control dna; 1 amplitype pm dna probe strips; 1 amplitype hla dqa1 dna probe strips; 1 chromogen, tmb, enzyme conjugate

Supplementary Features:

All kit components stored at 4 deg. Celsius, except mineral oil

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
