**Usage Design:**

For human identification

**Test Capability Quantity:**

50

**Test Media:**

Blood

**Component Breakdown Within Each Test Kit:**

N1 amplitype pm pcr reaction mix; 1 amplitype pm primer set; 1 mineral oil; 1 purified genomic control dna; 1 amplitype pm dna probe strips; 1 amplitype hla dqa1 dna probe strips; 1 chromogen, tmb, enzyme conjugate

**Supplementary Features:**

All kit components stored at 4 deg. Celsius, except mineral oil

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fig:**
