Usage Design:

Used for sizing dna samples in the 50 to 500 nucleotides range

Test Capability Quantity:

800

Component Breakdown Within Each Test Kit:

Nine single stranded labeled fragments

Special Features:

Store the item away from light; store item at temperature of 2 degrees c to 4 degrees c

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A510v0
