Physical Form:

Liquid

Usage Design:

Pcr reagent to test dna

Features Provided:

Sterile

Primary Container Type:

Vial

Total Primary Container Quantity:

1

Product Name:

Water analyzed reagent pcr to test dna sterile filtered 1.5ml vi

Special Features:

Polymerase chain reaction (pcr) water; sterile filtered; 1.5ml vial

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A10000
