Coagulation Control - Page 1 of 1

View Online at https://aerobasegroup.com/nsn/6550-01-507-1338

Physical Form:
Lyophilized powder
Protective Storage Feature:
Requires refrigeration between 2 degrees to 8 degrees c
Derivation:
Human
Primary Container Type:
Vial, glass
Primary Container Content Quantity:
1.000 milliliters
Product Name:
Control coagulation lyophylized level iii 1ml 25s
Special Features:
Plasma coagulation control abnormal level iii; refrigeration required; 25 per pkg./1ml
Shelf Life:
N/a
Unit Of Measure:
Demilitarization:
No
Fiig:
A10000
