Product Name:

Hexanes baker analyzed a.C.S. Reagent

Special Features:

Glass container; meets a.C.S. Specifications; assay min of 98.5 per cent; color maximum 10; residue after evaporation maximum .001 per cent; water soluble titrable acid meq/g maximum .0003; sulfur compounds maximum .005 per cent; passes thiophene test; 68.7 degrees c boiling point; .663 g/ml density at 25 degrees c

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
