Level Of Dermal Irritation Potential:

Strong

Special Features:

Physical and chemical properties physical state liquid; color reddish-brown; transparency opaque; odorless; ph 7.4; specific gravi type 1.008 at 20 degrees c; solubility water miscible; hazardous incompatibilities metals and metallic compounds; sodium azide forms explosive compounds with heavy metals; repeated contact of low concentrations of azide with lead and copper commonly found in plumbing drains may result in the build up of shock sensitive compounds; conditions to avoid keep away from incompatible material

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
