**Product Name:**

Arginine vasopressin radiomunoassay kit

**Special Features:**

Provides materials for the quantitative measurement of vasopressin in urine or plasma; i.C.O.; vasopressin stock; vasopressin reagent; vasopressin antiserum; precipitating reagent; vasopressin control; assay buffer

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fig:**

A23800
