Usage Design:

Intended for the detection and semi-quantitation antibodies to myeloperoxidase in human sera; the assay is to be used to detect antibodies in a single serum specimen; the results of the assay are to be used as an aid to the diagnosis of microscopic polyangiitis

Test Capability Quantity:

96

Product Name:

Elisa vasculitis and glomerulonephritis for autoimmune liver-kidney disorders

Test Media:

Serum

Special Features:

Format captia 96 well; test kit 96 tests

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A510v0
