Overall Length:

16.000 inches

Overall Height:

10.000 inches

Overall Width:

12.000 inches

Product Name:

Aluminum 96-well geneamp pcr system 9700

Special Features:

Cpu - 486 or higher processor; temperature accuracy 10.25 degs; internal calibration 4.0 degrees c - 99.9 degrees c; all systems software operations are controlled with five user diagnostics

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
