End Application:
GASA-NA-LYZ-ER,N
Product Name:
Chip methanol 20.0-500ppm reagent f/gas analyzer
Special Features:
Chip contains ten measurement capillaries filled with a substance-specific reagent system; measuring range is 20.0-500ppm; the test
capability is 10 tests; for cms analyzer
Shelf Life:
N/a
Unit Of Measure:

Demilitarization:

No
