**End Application:**

GASA-NA-LYZ-ER,N

**Product Name:**

Chip hydrogen sulfide 100-2500ppm reagent f/gas analyzer

**Special Features:**

Chip contains ten measurement capillaries filled with a substance-specific reagent system; measuring range is 100-2500ppm; the test capability is 10 tests; for cms analyzer

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No
