End Application:

GASA-NA-LYZ-ER,N

Product Name:

Chip nitrous gases (no + no2) 10.0-200ppm f/gas analyzer

Special Features:

Chip contains ten measurement capillaries filled with a substance-specific reagent detection system; measuring range is 10.0-200ppm; the test capability is 10 tests; for cms analyzer

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
