End Application:	
GASA-NA-LYZ-ER,N	
Product Name:	
Chip phosphine 200-5000ppm reagent f/gas analyzer	
Special Features:	
Chip contains ten measurement capillaries filled with a substance-specific reagent detection system; measuring range is 200-5000ppm;	the
test capability is 10 tests; for cms analyzer	
Shelf Life:	
N/a	
Unit Of Measure:	
Demilitarization:
