End Application:

GASA-NA-LYZ-ER,N

Product Name:

Chip petroleum hydrocarbons 100-3000 ppm reagent f/gas analyzer

Special Features:

Chip contains ten measurement capillaries filled with a substance-specific reagent detection system; measuring range is 100-3000ppm; the test capability is 10 tests; for cms analyzer

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
