End Application:	
GASA-NA-LYZ-ER,N	
Product Name:	
Chip ammonia reagent f/gas analyzer	
Special Features:	
Chip contains ten measurement capillaries filled with a substance-specific reagent system; the measuring range is 10.0-150 ppm; the	test
capibility is 10 tests; for cms analyzer	
Shelf Life:	
N/a	
Unit Of Measure:	
Demilitarization:
