Usage Design:

Detection of human chorionic gonadotropin (hcg) in urine or serum

Test Capability Quantity:

30

Product Name:

Test kit hcg serum/urine rt 30s

Test Media:

Urine or serum

Component Breakdown Within Each Test Kit:

30 individually pouched test cassettes with disposable pipettes

Special Features:

Detect urinary hcg concentrations equal to or greater than 20miu/ml and serum hcg concentrations equal to or greater than 10miu/ml; one-step procedure provides results in 5 minutes or less; clia waived for urine, nonwaived for serum; specificity type 100%; room temperature storage chromatographic immunoassay for the rapid qualitative determination of hcg in urine or serum

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
