Usage Design:

Monolithic separation of proteins and peptides

Product Name:

Monolithic column

Special Features:

Uses polymeric rod for mass transfer and separation

Functional Description:

Fused silica column/microcolumn

Supplementary Features:

200 microns (um) id x 0.5 cm lg (ps-dvb)

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A23800
