Special Features:

Colorless to slight yellow clear liquid; causes eye and skin burns; strong pungent odor; pH 0.01; 5.7 mm Hg @ 9 degrees C vapor pressure; 1.26 vapor density; 81.5 to 110 degrees Celsius @ 760 mm Hg boiling point; minus 74 degrees Celsius freezing/melting point; miscible solubility; stable under normal temperatures and pressures; hydrogen chloride, chloride, chlorine, carbon monoxide, carbon dioxide, hydrogen gas hazardous decomposition product; hazard class 8; UN number 1789; packing group II

Shelf Life:

N/A

Unit Of Measure:

--

Demilitarization:

No

Fig:

A45100
