Usage Design:

For the quantitative determination of protein s activity in human plasma

Test Capability Quantity:

160

Product Name:

Acticlot protein s

Test Media:

Plasma

Component Breakdown Within Each Test Kit:

Acticlot activator reagent 4 1ml vials; protein s depleted plasma 4 1ml vials; sample dilution buffer (10x cooncentrate) 2 2.5ml vials; protein s control plasm 2 .5ml vials

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:
