**Usage Design:**

Detection kit for hybridization probe assays

**Product Name:**

Bacillus anthracis target 1 kit

**Component Breakdown Within Each Test Kit:**

Reagent grade water, protocol at a glance instructions, detailed instructions, 64 reactions total, 4 positive, 8 unknown of ea. Target

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A510v0
