Usage Design:

Dna extraction for analysis

Product Name:

Qiaamp dna mini kit (50)

Special Features:

For 50 dna preps: 50 qiaamp mini spin columns, qiagen proteinase k, reagents, buffers, collection tubes (2 m)

Supplementary Features:

Partial list of applications including: viral research, bacterial research, fungal research, cancer research, paternity testing, forensic analysis

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A510v0
