End Application:

Triage meter

Usage Design:

Fluorescence immunoassay used with triage meter for determination of creatine kinase, myoglobin and troponin in whole blood and plasma

Product Name:

Triage cardiac panel

Test Media:

Blood or plasma

Special Features:

For use in diagnosis of acute myocardial infarction (AMI) of patient with chest pain

Shelf Life:

N/A

Unit Of Measure:

--

Demilitarization:

No

Fig:

A510v0
