End Application:

Immunohistology

Approximate Shelf Life:

2.0 years

Product Name:

Ki-67 rabbit monoclonal antibody

Dot Identification Number:

Un1687

Level Of Dermal Irritation Potential:

Strong

Special Features:

Epitope c-terminus; ig isotype rabbit igg; species reactivity human and rat mouse, dog, swine, other not tested; clone designation sp6; immunogen asynthetic peptide derived from human ki-67 proteins; applications immunohistology

Material:

Nuclear protein ki-67

Special Test Features:

For research use only; experimental; do not discard in plumbing systems

Supplementary Features:

Positive control-spleen, tonsil or breast carcinomas; cellular localization-nuclear; supplied as tissue culture supernatant with 0.09percent sodium azide; store at 2-8 degrees c

General Description:

Clone sp6 is excellent for staining of formalin/parafin

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
