End Application:

Immunohistology

Protective Storage Feature:

Controlled room temperature

Identification Designator:

Cellular localization-cytoplasmic

Approximate Shelf Life:

24.0 months

Product Name:

Lambda light chain antibody

Dot Identification Number:

Un1687

Special Features:

Lambda light chain ab-1 (clone hp6054); mouse monoclonal antibody; supplied as 200ug/ml antibody purified from the ascites fluid by protein a chromatography; prepared in 10mm pbs, ph 7.4 with 0.2percent bsa and 0.09percent sodium azide; stable for 24 months when stored at 2 to 8deg c

Functional Description:

Positive control-tonsil

Supplementary Features:

For research use only; do not discard in plumbing systems; avoid skin and eye contact, inhalation or ingestion

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A23800
