Storage Temperature Range:

+2.0/+8.0 degrees celsius

Approximate Shelf Life:

15.0 months

Features Provided:

Desiccant agent

Product Name:

Streptococcus agalactiae kwik stik 2s

Special Features:

Refrigerate between 2 and 8 degrees c; qc organism; microbiology; streptococcus agalactiae; atcc no.: 13813; duopack; two self-contained stik units

Functional Description:

Reference stock culture for use in microbiology quality assurance

Unit Package Type:

Package

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A23800
