Physical Form:

Dried

Protective Storage Feature:

Requires refrigeration storage between 2 to 8 degrees celsius

Primary Container Type:

Cartridge

Product Name:

Alanine aminotransferase (alt) test reagent vitros 250/350 250 test slides per pk

Special Features:

Alanine aminotransferase (alt) reagent pack for patent testing on the vitros 250 and 350 chemistry analyzers; five cartridges per case with 50 tests per cartridge for a total of 250 test slides; store between 2-8 deg.C

Supplementary Features:

For use on nsn: 6630-01-540-6817, chemistry analyzer

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A10000
