Usage Design:

Labeling and detecting dna strand breaks by indirect tunel method

Test Capability Quantity:

40

Product Name:

Apoptag plus peroxidase in situ apoptosis kit

Component Breakdown Within Each Test Kit:

Equilibrium buffer 3ml; reaction buffer 2ml; tdt enzyme 0.627ml; stop/wash buffer 20ml; anti-digoxigenin-peroxidase 3ml; plastic cover slips 100; control slides 2; dab substrate 130 ul; dab dilution buffer 6.5ml

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A510v0
