End Application:

Autoimmune research; laboratory use

Product Name:

Human pentraxin 3/tsg-14 immunoassay kit

Special Features:

For the quantitative determination of human pentraxin 3 (ptx3) concentrations in cell culture supernates, plasma and saliva; for research use only, not for diagnostic use; maybe stored for 1 month at 2-8deg cel; do not use past kit expiration date

Supplementary Features:

Includes streptavidin microplates; ptx 3 biotinulated antibody; ptx3 conjugate; ptx3 standard; pretreatment d; assay diluent rd1-56; calibrator diluent rd5-24 concentrate; wash buffer concentrate; color reagents and b; stop solution; plate covers

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A23800
